Financial Economics Specialist, CGPA: 3.71/4.0

Introduction

I am an undergraduate in the Financial Economics Specialist program at the University of Toronto, with research interests in macroeconomics and international finance. In my coursework, I have used Stata to estimate and compare OLS and 2SLS models in analyses of crime rates and policing and of production functions in industrial organization, and R to visualize economic trends such as the gender wage gap across age groups. I also have a foundation in Python, having built a warship game and a poetry-form checker, and I use LaTeX for mathematically intensive writing.

Education

University of Toronto (Toronto, Canada)

September 2023-June 2027 (Expected)

High School Affiliated to Fudan University (Shanghai, China)

September 2020-June 2023

Academic Accomplishments

- University of Toronto St. George Dean's List Scholar for the 2026 Academic Year
- University of Toronto Scarborough Dean's List for 2024 and 2025 Academic Year.
- UTSC Undergraduate Research Day Speaker for 2024 Academic Year (Top 4 out of 200 researchers)

Academic Experience
